BLANCHARD'S BREAKS.

The Canadian Lumber Man Who is Stumping Wilson's District.

WHY HE IS NOW A DEMOCRAT

And is Anxious for the Free Trade Leader's Re-election to Congress His Speech at Parsons Torn to Pieces-Silent on the Coal Question. The People of the Second District Have All the Free Trade They Want.

Special Correspondence of the Intell Parsons, W. Va., Oct. 2.—The Democrats opened up their campaign in this county to-day, which was a glorious fizzle, to say the least. The brethren of the free trade persuasion spent two days beforehand trying to get a crowd, in or der that they might at least make an appearance, which they failed to do. The people here have all the free trade they

want, and more, too.

J. C. Blanchard was the big gun of the day. He was introduced by L. Hansford, Democratic nominee for the house of delegates from this delegate district. After the introduction Mr. Blanchard came to the "scratch," and never in the history of politics in this county did an audience listen to a more county did an audience listen to a more misleading or untruthful argument from the lips of man. Mr. Blanchard commenced to sympathize with the poor man at the beginning of his speech. Ye gods! what a speetacle—a five times and upward millionaire. A man who said in his speech that he was for John C. Blanchard, first, tast and all the time. Mr. Blanchard's political history in Michigan bas boen a varied one. While he owned timber in Michigan he was a Republican. After he had disposed of his interests in Michigan and invested the proceeds in Canadian lumber he way a Democrat. Right here let the voter pause and consider. If Mr. Blanchard could be a Republican while his interests were in Michigan was he not in favor of protection, and was not the Republican party the party of the American people? On the other hand after he had got control of an immense amount of lumber in Canada he joined theilment of protection and flood our markets with the foreign products of England, and Canada most especially. Can such a party be the representative of the American people? Mr. Blanchard's own argument showed that it could not.

On the coal question Mr. Blanchard misleading or untruthful argument

pie? Mr. Blanchard's own argument showed that it could not.
On the coal question Mr. Blanchard was as silent as oyster, but upon the wool question he got off the same old Democratic gag and made the assertion that wool would advance thirteen cents under the free wool Wilson bill and that he had one hundred dollars that said so. 'The Hon. J. O. here reckoned without his host. In two minutes time there was six hundred dollars at his disposal in the audience. Then he very there was six hundred dollars at his disposal in the audience. Then he very suddenly discovered that he was not a betting man, and begged the audience not to interrupt him and the six hundred dollars went begging. By way of illustration on the same day there was a prominent wool dealer here from Harrison county and a Democrat, and when asked what he was paying for wool he said that from 14 to 15 cents per pound was all that he could afford per pound was all that he could afford to pay. This looks like Mr. Blanchard's dvance of 13 cents on the pound, does

it not?

Mr. Blanchard's next break was on
In his speect

it not?

Mr. Blanchard's next break was on the cross-tie question. In his speech he said that cross-ties were admitted free of duty for the benefit of the "poor" railraads. If he would just turn to the schedule of 1891 he will find that there is a duty of 20 per cent ad valorem on these very same cross-ties, but under the Wilson bill they come in free to the "poor" railroads. Quite a difference between a Democratic orator and the truth. Mr. Blanchard closed his speech with a desperate appeal on behalf of William L. Wilson.

The Democrats of this district are desperate, and are flooding the county with money. They are leaving no stone unturned to defeat Dayton. They recognize the fact that the defeat of Wilson means Democratic defeat in 1896. Wages along the West Virginia Central & Pittsburgh railway, which runs through a large portion of the territory composing this district, have been reduced 20 per cent in the lumber woods and coal and coke works on account of the passage of the Wilson bill. These are significant facts. These people cannot secure orders for their product, and the reason is that they cannot compete with foreign trade and foreign labor. e reason is that they ca with foreign trade and foreign labor. Let the votors of this district weigh these matters, and on the sixth day of November send a man to Congress who will represent their interest and not that of an English syndicate.

PROTECTIONIST.

CAMDEN'S "ARRANGEMENT."

The Outrageous Gerrymander of Sena-torial and Delegate Districts in This State by the Democratic Legislature. To the Editor of the Intelligencer.

Sin:-Some days ago it was reported that Senator Camden said in an interview in the east that, owing to an "arrangement" of the senatorial and delegate districts in this state, the Democrats would have a majority on joint ballot in the legislature of twenty-six, which would insure the election of a Democrat-presumably himself-to the

Democrat—presumably himself—to the United States senate.

I have taken the trouble to look up said "arrangement" and find that the counties of Kanawha, Nicholas, Braxton, Clay and Boone, with a population of 77,537, constitute the Ninth senatorial district, while the counties of Berkeley, Morgan and Jefferson, with a population of 40,999, constitute the Thirteenth senatorial district. Kanawha county alone has a greater population than the entire Thirteenth district, but then Kanawha is a Republican county, and to effect the senator's "arrangement" it was necessary, for political reasons only, to sandwich it between the Democratic counties of Nicholas, Braxton and Boote. So much for two of the arranged senatorial districts, where the constitution of the state, in speaking of senatorial districts, says in article 6, section 4: "The districts shall be compact, formed of contiguous territory, bounded by county lines, and as nearly as practicable equal in population."

In the light of the constitution compare these two districts as to population: Ninth senatorial district, population, 77,537; Thirteenth senatorial district, population, Apple of the constitution compare those two districts as to population: Ninth senatorial district, population, 40,999. Those figures need to comment. Senator Camden explained them when he said they were so "arranged" as to insure a Democratic county of Boone, with a population of 6,885, ta given one delegate, and the Republican county of McDowell, with a population of 7,300, deprived of a delegate of the constitution of 6,885, ta given one delegate, and the Republican county of McDowell, with a population of 7,300, deprived of a delegate of the constitution of 8,890, deprived of a delegate of the constitution of 8,800, deprived of a delegate of the constitution of 8,800, deprived of a delegate of the constitution of 8,800, deprived of a delegate of the constitution of 8,800, deprived of a delegate of 1,300, deprived of a delegate of 1,300, deprived of a delegate of 1,300, deprived of

gate, but "arranged" into a delegate dis-trict with the Democratic county of

Again, we find that the Democratic Again, we find that the Democratic county of Pocahontas, with a population of 6,814—486 less than McDowell—has a delegate, while the Republican county of Grant, with only twelve less than Pocahontas, is "arranged" into a delegate district with the Democratic county of Hardy, and deprived of a delegate

The above named are but a few of the "arrangements" found necessary to give a Democratic majority of twenty-six on

a Democratic majority of twenty-six on joint ballot.

To their lasting honor and credit, Judge Ferguson, of Kanawha, Mr. Welsh, of Mineral, and Mr. Thomas, of Putnam, voted against this "arrangement" measure, and Judge Ferguson said the measure was unconstitutional and he could not support it, and Judge Ferguson is confessedly the ablest constitutional lawyer in the Democratic ranks in this state. in this state

The question now is, will the honest men of any party endorse by their votes a party that will knowingly violate the constitution they are sworn to protect and obey for political or party purposes? S. R. HANEN, ** McMechen, W. Va., October 3, 1894.

Due to a Misconstruction

PORT LOUIS, ISLAND OF MAURITIUS, Oct. 4.-The statement that a blockade of the Island of Madagascar had been declared by France was brought here by steamer from Madagascar. The re-port appears to have been due to a mis-construction of the French measures taken to prevent the landing of arms and ammunition for the Hovas.

and ammunition for the Hovas.

The Madagascar papers received here state that the French settlers have been warned by the French residents to repair to the coast in view of possible hostilities.

They will Protest. Washington, D. C., Oct. 4.-Austria is likely to join Germany at an early day in protesting against that feature of the new tariff law of this country which puts a discriminating duty on sugar from countries paying an export duty or bounty on sugar. Chevalier de Ta-vara, the Austrian minister here, says that as yet he has received no instruc-tions on the subject. He states, how-ever, that he is expecting Austria to inake a protest similar to that of Ger-many, as the two countries act in concert on all questions of foreign policy.

The share speculation to-day was characterized by merked atrength and a fair degree of activity. Chicago Gas was the feature of the speculation and was taken in hand early by an outside clique, which proceeded to squeeze the shorts in the stock, the loaning rates having been put up to 1.32. Under the covering which followed, assisted by purchases for the long account, induced by the searcity of the stock, the price moved up sharply to 72%, a gain of 2% per cent on the closing price of yesterlay. At the higher figures the bears made a drive on the stock, which caused a reaction of 1 per cent to 71% before noon. After midday the buying was resumed and became very heavy late in the afternoon, sending the stock up to 13%, the last being the highest price of the day and 3% per cent above last night a closing stock. At early additional content of the content of 10 per cent. It was not until later in the morning that the shares came into good buying ded nand, but the strength of the market generally led to a covering movement in Sugar, which resulted in advanding the shares 2% per cent to 85%, with only a final reaction of 3 per cent. Advances were established in the other industrials of 1% in Tobacce; 1% in Lead, and Distilling 5% per cent. In the railway list the Grangers were most active, and the most notable event of the trading therein was a bear attack on Rock Island, causing a break of 1½ per cent from the opening price.
